## SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

There are statements in this quarterly report that are not historical facts. These “forward-looking statements” can be identified by use of terminology such as “anticipate,” “believe,” “estimate,” “expect,” “hope,” “intend,” “may,” “plan,” “positioned,” “project,” “propose,” “should,” “strategy,” “will,” or any similar expressions. You should be aware that these forward-looking statements are subject to risks and uncertainties that are beyond our control. Although we believe that our assumptions underlying such forward-looking statements are reasonable, we do not guarantee our future performance, and our actual results may differ materially from those contemplated by these forward-looking statements. Our assumptions used for the purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances, including the development, acceptance and sales of our products and our ability to raise additional funding sufficient to implement our strategy. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. In light of these numerous risks and uncertainties, we cannot provide any assurance that the results and events contemplated by our forward-looking statements contained in this quarterly report will in fact transpire. **These forward-looking statements are not guarantees of future performance. You are cautioned to not place undue reliance on these forward-looking statements, which speak only as of their dates.** We do not undertake any obligation to update or revise any forward-looking statements.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – COMPANY BACKGROUND

Cardax Pharmaceuticals, Inc. (“Holdings”) was incorporated in the State of Delaware on March 23, 2006.

In May of 2006, Hawaii Biotech, Inc., contributed its anti-inflammatory, small molecule line of business into Holdings. Holdings issued (i) 9,447,100 shares of common stock of Holdings, (ii) 14,440,920 shares of Series A preferred stock of Holdings, (iii) 11,113,544 shares of Series B preferred stock of Holdings and (iv) 13,859,324 shares of Series C preferred stock of Holdings to Hawaii Biotech, Inc., in exchange for the assets and liabilities contributed to Holdings. The above shares were then distributed by Hawaii Biotech, Inc. to its shareholders. An additional 704,225 shares of Series C preferred stock were issued as part of the initial capitalization of Holdings. On January 30, 2007, all outstanding shares of Series A, B, and C preferred stock were converted to shares of Series A preferred stock.

Holdings was formed for the purpose of developing a platform of proprietary, exceptionally safe, small molecule compounds for large unmet medical needs where oxidative stress and inflammation play important causative roles. Holdings’ platform has application in arthritis, metabolic syndrome, liver disease, and cardiovascular disease, as well as macular degeneration and prostate disease. Holdings’ current primary focus is on the development of astaxanthin technologies. Astaxanthin is a naturally occurring marine compound that has robust anti-oxidant and anti-inflammatory activity.

In May of 2013, Holdings formed a 100% owned subsidiary company called Cardax Pharma, Inc. (“Pharma”). Pharma was formed to maintain Holdings’ operations going forward, leaving Holdings as an investment holding company.

On November 29, 2013, Holdings entered into a definitive merger agreement (“Merger Agreement”) with Koffee Korner Inc., a Delaware corporation (“Koffee Korner”) (OTCQB:KOFF), and its wholly owned subsidiary (“Koffee Sub”), pursuant to which, among other matters and subject to the conditions set forth in such Merger Agreement, Koffee Sub would merge with and into Pharma. In connection with such merger agreement and related agreements, upon the consummation of such merger, Pharma would become a wholly owned subsidiary of Koffee Korner and Koffee Korner would issue shares of its common stock to Holdings. At the effective time of such merger, Holdings would own a majority of the shares of the then issued and outstanding shares of common stock of Koffee Korner.

On February 7, 2014, Holdings completed its merger with Koffee Korner, which was renamed to Cardax, Inc. (the “Company”) (OTCQB:CDXI). Concurrent with the merger: (i) the Company received aggregate gross cash proceeds of \$3,923,100 in exchange for the issuance and sale of an aggregate 6,276,960 of shares of the Company’s common stock, together with five year warrants to purchase an aggregate of 6,276,960 shares of the Company’s common stock at \$0.625 per share, (ii) the notes issued on January 3, 2014, in the outstanding principal amount of \$2,076,000 and all accrued interest thereon, automatically converted into 3,353,437 shares of the Company’s common stock upon the reverse merger at \$0.625 per share, together with five year warrants to purchase 3,321,600 shares of common stock at \$0.625 per share, (iii) the notes issued in 2013, in the outstanding principal amount of \$8,489,036 and all accrued interest thereon, automatically converted into 14,446,777 shares of the Company’s common stock upon the reverse merger at \$0.625 per share, together with five year warrants to purchase 14,446,777 shares of common stock at \$0.625 per share, (iv) stock options to purchase 15,290,486 shares of Holdings common stock at \$0.07 per share were cancelled and substituted with stock options to purchase 6,889,555 shares of the Company’s common stock at \$0.155 per share, (v) additional stock options to purchase 20,867,266 shares of the Company’s common stock at \$0.625 per share were issued, and (vi) the notes issued in 2008 and 2009, in the outstanding principal amounts of \$55,000 and \$500,000, respectively, and all accrued interest thereon, were repaid in full. The assets and liabilities of Koffee Korner were distributed in accordance with the terms of a spin-off agreement on the closing date.

## NOTE 1 – COMPANY BACKGROUND (continued)

### Going concern matters

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying unaudited condensed consolidated financial statements, the Company incurred a net loss of \$2,021,070 and \$13,305,999 for the three and six-month periods ended June 30, 2014, respectively, and a net loss of \$907,229 and \$1,501,521, for the three and six-month periods ended June 30, 2013, respectively. As a result of these and other factors, the Company's independent registered public accounting firm has included an explanatory paragraph in their audited consolidated financial statements and footnotes in the current report on Form 8-K filed February 10, 2014 as to the substantial doubt about the Company's ability to continue as a going concern.

## NOTE 2 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Cardax, Inc. and its wholly owned subsidiary Cardax Pharma, Inc., have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim financial information. In the opinion of the Company's management, the accompanying condensed consolidation financial statements reflect all adjustments, consisting of normal, recurring adjustments, considered necessary for a fair presentation of the results for the interim periods ended June 30, 2014 and 2013. Although management believes that the disclosures in these unaudited condensed consolidated financial statements are adequate to make the information presented not misleading, certain information and footnote disclosures normally included in financial statements that have been prepared in accordance U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. The results for the three and six-month periods ended June 30, 2014 and 2013 are not necessarily indicative of the results to be expected for the years ending December 31, 2014 and 2013. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the current report on Form 8-K filed February 10, 2014.

The accompanying consolidated condensed financial statements include the accounts of Cardax, Inc., and its wholly owned subsidiary, Cardax Pharma, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

NOTE 2 – BASIS OF PRESENTATION (continued)

Reverse acquisition accounting

On February 7, 2014, Koffee Sub and Pharma completed a reverse acquisition transaction (the “Acquisition”). As part of the Acquisition, the Company acquired 100% of the issued and outstanding common stock of Pharma. In addition, Holdings acquired 33,229,093 shares of the Company’s common stock, which constituted approximately 53% of the Company’s issued and outstanding common stock on a post-acquisition basis as of and immediately after the consummation of the Acquisition.

The share exchange transaction was treated as a reverse acquisition, with Holdings and Pharma as the acquirers and Koffee Korner and Koffee Sub as the acquired parties. Unless the context suggests otherwise, when the Company refers to business and financial information for periods prior to the consummation of the reverse acquisition, the Company is referring to the business and financial information of Holdings and Pharma. Under U.S GAAP guidance ASC 805-40, *Business Combinations – Reverse Acquisitions*, the Acquisition has been treated as a reverse acquisition with no adjustment to the historical book and tax basis of the Company’s assets and liabilities.

Accordingly, the effect of the Acquisition on the shareholders’ equity opening balances for common shares, par value and additional paid-in capital has been retroactively adjusted as shown below:

	Common Stock \$0.001 Par Value		Additional Paid-In Capital
	Shares	Amount	
Balance, December 31, 2013, pre-reverse acquisition	9,488,227	\$ 9,488	\$ 19,891,702
Share exchange adjustment	23,740,866	23,741	(23,741)
Balance, December 31, 2013, post-reverse acquisition	33,229,093	\$ 33,229	\$ 19,867,961

Reclassifications

The Company has made certain reclassifications to conform its prior periods’ data to the current presentation. These reclassifications had no effect on the reported results of operations.

Recent accounting pronouncements

In June 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-10, *Development Stage Entities – Elimination of Certain Financial Reporting requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation*. The provisions of ASU No. 2014-10 remove the definition of a development stage entity from the Master Glossary of the Accounting Standards Codification, thereby removing the financial reporting distinction between development stage entities and other reporting entities from U.S. GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information in the statements of income, cash flows, and shareholder equity, (2) label the financial statements as those of a development stage entity, (3) disclose a description of the development stage activities in which the entity is engaged, and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The Company elected to early adopt the provisions of ASU No. 2014-10 as permitted by this ASU effective its June 30, 2014, financial statements. This early adoption allowed the Company to remove the disclosures noted in items (1) to (3) above.

Interest

Interest expense on these notes was \$0 and \$112,450, for the three and six-month periods ended June 30, 2014, respectively. Interest expense on these notes was \$136,432 and \$249,847, for the three and six-month periods ended June 30, 2013, respectively.

Interest accrued on these notes as of June 30, 2014 and December 31, 2013, was \$0 and \$657,092, respectively.

NOTE 6 – LONG-TERM NOTES PAYABLE, net (continued)

Note conversion

Management tested the conversion of the 2012 short-term unsecured promissory notes and 2010 to 2012 secured promissory notes to bridge loans in 2013 for potential extinguishment accounting. Because the fair market value of the notes prior to conversion as compared to the fair market value of the notes subsequent the conversion was less than a 10% difference, management concluded to apply modification accounting and are accruing interest based on the new note terms.

Discount

A discount on these notes of \$0 and \$4,592, as of June 30, 2014 and December 31, 2013, respectively, was based on the fair value of detachable warrants issued at the time of funding. This discount is being amortized straight-line over the underlying term of the note. Interest expense of \$0 and \$4,592, for the three and six-month periods ended June 30, 2014, respectively, was recognized as amortization of this discount. Interest expense of \$2,669 and \$34,813, for the three and six-month periods ended June 30, 2013, respectively, was recognized as amortization of this discount.

A summary of the debt discount activity for the six-month period ended June 30, 2014 and year ended December 31, 2013 is as follows:

Balance January 1, 2013	\$	65,173
Amortization of debt discount		(60,581)
Balance December 31, 2013		4,592

NOTE 7 – STOCK OPTION PLANS

On May 15, 2006, the Company adopted the 2006 Stock Incentive Plan. Under this plan, the Company may issue shares of restricted stock, incentive stock options, or non-statutory stock options to employees, directors, and consultants. The aggregate number of shares which may be issued under this plan was 16,521,704, which was increased by 1,456,786 to 17,978,490 as part of the Series B Offering in 2007. This plan was terminated on February 7, 2014.

On February 7, 2014, the Company adopted the 2014 Equity Compensation Plan. Under this plan, the Company may issue options to purchase shares of common stock to employees, directors, advisors, and consultants. The aggregate number of shares which may be issued under this plan is 30,420,148.

Under the terms of the 2014 Equity Compensation Plan and the 2006 Stock Incentive Plan (collectively, the “Plans”), incentive stock options may be granted to employees at a price per share not less than 100% of the fair market value at date of grant. If the incentive stock option is granted to a 10% stockholder, then the purchase or exercise price per share shall not be less than 110% of the fair market value per share of common stock on the grant date. Non-statutory stock options and restricted stock may be granted to employees, directors, advisors, and consultants at a price per share, not less than 100% of the fair market value at date of grant. Options granted are exercisable, unless specified differently in the grant documents, over a default term of ten years from the date of grant and generally vest over a period of four years.

NOTE 7 – STOCK OPTION PLANS (continued)

A summary of stock option activity is as follows:

	Options	Weighted average exercise price	Weighted average remaining contractual term in years	Aggregate intrinsic value
Outstanding January 1, 2013	15,290,486	\$ 0.07	3.89	\$ 358,662

Exercisable June 30, 2014	<u>21,373,845</u>	\$ 0.47	6.31	\$ 2,710,564

The aggregate intrinsic value in the table above is before applicable income taxes and represents the excess amount over the exercise price option recipients would have received if all options had been exercised on the date of issue, based on a valuation of the Company's stock for that day.

A summary of the Company's non-vested options for the six-month period ended June 30, 2014, and for the year ended December 31, 2013, is presented below:

Non-vested at January 1, 2013	765,625
Granted	-
Vested	(765,625)
Forfeited	-
Non-vested at December 31, 2013	-

Vested	(21,373,845)
Forfeited	-
Non-vested at June 30, 2014	<u>6,382,976</u>

As of June 30, 2014, total unrecognized stock-based compensation expense related to all unvested stock options was \$1,398,978, which is expected to be expensed over a weighted average period of 1 year.

NOTE 7 – STOCK OPTION PLANS (continued)

Under ASC No. 718, the Company estimates the fair value of stock options granted on each grant date using the Black-Scholes option valuation model and recognizes an expense ratably over the requisite service period. The range of fair value assumptions related to options outstanding as of June 30, 2014, and December 31, 2013, were as follows:

	<u>June 30, 2014</u>	<u>December 31, 2013</u>
Dividend yield	0.0%	0.0%
Risk-free rate	0.12% - 1.47%	0.92% - 5.15%
Expected volatility	116% - 170%	116% - 170%
Expected term	1.1 - 5.5 years	2.5 - 7.5 years

The expected volatility was calculated based on the historical volatilities of publicly traded peer companies, determined by the Company. The risk free interest rate used was based on the U.S. Treasury constant maturity rate in effect at the time of grant for the expected term of the stock options to be valued. The expected dividend yield was zero, as the Company does not anticipate paying a dividend within the relevant time frame. Due to a lack of historical information needed to estimate the Company's expected term, it was estimated using the simplified method allowed under ASC No. 718.

As part of the requirements of ASC No. 718, the Company is required to estimate potential forfeitures of stock grants and adjust stock based compensation expense accordingly. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized in the period of change and will also impact the amount of stock based compensation expenses to be recognized in future periods.

The Company recognized \$831,195 and \$4,717,841, in stock based compensation expense during the three and six-month periods ended June 30, 2014, respectively. The Company recognized \$2,820 and \$6,435, in stock based compensation expense during the three and six-month periods ended June 30, 2013, respectively.

NOTE 8 – RESTRICTED STOCK GRANTS

On June 16, 2014, the Company granted its four independent directors an aggregate of 642,200 shares of restricted common stock in the Company. The total fair value of this stock on the date of grant was \$597,246. These shares are subject to a risk of forfeiture and vest quarterly in arrears commencing on June 1, 2014 and will be fully vested at the end of one full year.

The Company recognizes the expense related to these grants ratably over the requisite service period. Total stock compensation expense recognized as a result of these grants was \$49,771 for the three and six-month periods ended June 30, 2014. The remaining balance of \$547,475 was classified as deferred compensation in equity as of June 30, 2014.

NOTE 9 – WARRANTS

The following is a summary of the Company's warrant activity:

	Warrants	Weighted average exercise price	Weighted average remaining contractual term in years	Aggregate intrinsic value
Outstanding January 1, 2013	3,693,971	\$ 0.450	4.81	\$ -
Exercisable January 1, 2013	3,693,971	\$ 0.450	4.81	\$ -

Outstanding June 30, 2014	<u>28,405,782</u>	\$ 0.653	4.61	\$ -
Exercisable June 30, 2014	<u>28,405,782</u>	\$ 0.653	4.61	\$ -

Under ASC No. 718, the Company estimates the fair value of warrants granted on each grant date using the Black-Scholes option valuation model. The fair value of warrants issued with debt is recorded as a debt discount and amortized over the life of the debt. The range of fair value assumptions related to warrants outstanding as of June 30, 2014 and December 31, 2013, were as follows:

	June 30, 2014	December 31, 2013
Dividend yield	0.0%	0.0%
Risk-free rate	0.12% - 0.66%	0.62% - 4.59%
Expected volatility	112% - 159%	108% - 167%
Expected term	1.0 - 2.5 years	2.5 - 10.0 years

The expected volatility was calculated based on the historical volatilities of publicly traded peer companies, determined by the Company. The risk free interest rate used was based on the U.S. Treasury constant maturity rate in effect at the time of grant for the expected term of the warrants to be valued. The expected dividend yield was zero, as the Company does not anticipate paying a dividend within the relevant time frame. The expected warrant term is the life of the warrant.

The Company recognized \$11,610 and \$5,229,589, in stock based compensation expense during the three and six-month periods ended June 30, 2014, respectively. Warrants issued prior to February 7, 2014, were issued in conjunction with the origination of notes payable and were accounted for as a discount on the related notes. See Note 6 for the expense associated with the issuance of these warrants.

## NOTE 10 – RELATED PARTY TRANSACTIONS

### Consulting agreement

As part of consulting agreements, a director provided consulting services to the Company. The Company incurred \$55,385 and \$120,000, in consulting fees to this director for the three and six-month periods ended June 30, 2014, respectively. The Company incurred \$9,231 in consulting fees to this director for the three and six-month periods ended June 30, 2013.

Amounts payable under these agreements were \$210,212 and \$216,000, as of June 30, 2014 and December 31, 2013, respectively.

## NOTE 11 – INCOME TAXES

The Company accounts for income taxes using the asset and liability method. Under this method, deferred income tax assets and liabilities are determined based upon the difference between the financial statement carrying amounts and the tax basis of assets and liabilities and are measured using the enacted tax rate expected to apply to taxable income in the years in which the differences are expected to be reversed.

The effective tax rate for the six-month periods ended June 30, 2014 differs from the statutory rate of 34% as a result of the state taxes (net of Federal benefit) and permanent differences.

The Company is subject to taxation in the United States and two state jurisdictions. The preparation of tax returns requires management to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. Management, in consultation with its tax advisors, files its tax returns based on interpretations that are believed to be reasonable under the circumstances. The income tax returns, however, are subject to routine reviews by the various taxing authorities. As part of these reviews, a taxing authority may disagree with respect to the tax positions taken by management (“uncertain tax positions”) and therefore may require the Company to pay additional taxes. Management evaluates the requirement for additional tax accruals, including interest and penalties, which the Company could incur as a result of the ultimate resolution of its uncertain tax positions. Management reviews and updates the accrual for uncertain tax positions as more definitive information becomes available from taxing authorities, completion of tax audits, expiration of statute of limitations, or upon occurrence of other events.

As of June 30, 2014, there was no liability for income tax associated with unrecognized tax benefits. The Company recognizes accrued interest related to unrecognized tax benefits as well as any related penalties in interest income or expense in its consolidated condensed statements of operations, which is consistent with the recognition of these items in prior reporting periods.

With few exceptions, the Company is no longer subject to U.S. Federal, state, local, and non-U.S. income tax examination by tax authorities for tax years before 2010.

The Company’s valuation allowance is primarily related to its operating losses. The valuation allowance is determined in accordance with the provisions of ASC No. 740, *Income Taxes*, which requires an assessment of both negative and positive evidence when measuring the need for a valuation allowance. Based on the available objective evidence and the Company’s history of losses, management provides no assurance that the net deferred tax assets will be realized. As of June 30, 2014 and December 31, 2013, the Company has applied a valuation allowance against its deferred tax assets net of the expected income from the reversal of the deferred tax liabilities.

NOTE 12 – BASIC AND DILUTED NET INCOME (LOSS) PER SHARE

The following table sets forth the computation of the Company’s basic and diluted net income (loss) per share for the three-month periods ended:

Common stock warrants	28,405,782	-
Total common stock equivalents	<u>49,779,627</u>	<u>15,050,500</u>

NOTE 13 – CONCENTRATION

The Company purchases all of its inventory from one vendor in Germany. Although, there were no purchases from this vendor during the six-month periods ended June 30, 2014 and 2013, outstanding payables to this vendor were \$86,255 as of June 30, 2014 and December 31, 2013.

NOTE 14 – LEASES

Lease settlement

On April, 29, 2011, the Company entered into a settlement agreement with a lessor whereby the Company would make monthly payments totaling \$614,934 from January 1, 2011 to October 1, 2013, in exchange of a waiver of \$786,945 in late and other fees, which is recorded as a gain on debt extinguishment on the 2011 statement of operations. In the event of default, this waived amount would be payable in full in addition to the settlement amount. Total rent settlement amounts payable were \$0 as of June 30, 2014 and December 31, 2013.

Although in default at the end of 2012, the Company subsequently cured and settled the obligation in full on October 1, 2013. The lessor upheld the Satisfaction of Judgment without exercising any of the default provisions.

Hawaii Research Center

The Company entered into a lease for laboratory and office space on May 9, 2006. This lease amended on September 7, 2011, and October 30, 2012. This lease expires on October 31, 2014. Total rent expense under this agreement as amended was \$17,012 and \$32,622, for the three and six-month periods ended June 30, 2014, respectively. Total rent expense under this agreement as amended was \$16,832 and \$37,724, for the three and six-month periods ended June 30, 2013, respectively.

Manoa Innovation Center

The Company entered into an automatically renewable month-to-month lease for office space on August 13, 2010. Under the terms of this lease, the Company must provide a written notice 45 days prior to vacating the premises. Total rent expense under this agreement as amended was \$8,465 and \$15,430, for the three and six-month periods ended June 30, 2014, respectively. Total rent expense under this agreement as amended was \$11,150 and \$20,036, for the three and six-month periods ended June 30, 2013, respectively.

Maturities

Future minimum lease payments under non-cancelable operating leases were \$12,252, at June 30, 2014. This amount was all due during 2014.

## NOTE 15 – COMMITMENTS

### Patent payable

As part of the formation of the Company, a patent license was transferred to the Company. The original license began in 2006. Under the terms of the license the Company agreed to pay \$10,000 per year through 2015 and royalties of 2% on any revenues resulting from the license. There were no revenues generated by this license during the six-month periods ended June 30, 2014 and 2013. The remaining obligation of \$10,000 and \$20,000 as of June 30, 2014 and December 31, 2013, respectively, is recorded as patent license payable on the balance sheet.

### Employee settlement

As of June 30, 2014 and December 31, 2013, the Company owed a former employee a settlement payable in the amount of \$50,000 for accrued vacation benefits. As part of the settlement, a stock option previously granted to the former employee was fully vested and extended.

### License and agreements

In November 2006, the Company entered into a joint development and supply agreement with the supplier of all of its inventory. Under the agreement, the Company granted the supplier an exclusive world-wide license to use the Company's rights related to the development and commercialization of human nutraceutical astaxanthin products. The Company is to receive specified royalties based on future net sales of such human nutraceutical astaxanthin products. No royalties were realized from this agreement during the six-month periods ended June 30, 2014 and 2013.

## NOTE 16 – SUBSEQUENT EVENT

On July 14, 2014, the Company granted its four independent directors an aggregate of 134,553 shares of restricted common stock of the Company. The total fair value of this stock on the date of grant was \$108,988. These shares are subject to a risk of forfeiture and vest quarterly in arrears commencing on June 1, 2014 and will be fully vested at the end of one full year.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### Explanatory Note

Unless otherwise noted, references in this Form 10-Q to "Cardax," the "Company," "we," "our" or "us" means Cardax, Inc., the registrant, and, unless the context otherwise requires, together with its wholly-owned subsidiary, Cardax Pharma, Inc., a Delaware corporation ("Pharma"), and Pharma's predecessor, Cardax Pharmaceuticals, Inc., a Delaware corporation ("Holdings").

### Corporate Overview and History

We acquired Cardax Pharma, Inc. ("Pharma") and its life science business through the merger of Cardax Acquisition, Inc. ("Cardax Sub"), our wholly-owned transitory subsidiary ("Cardax Sub"), with and into Pharma on February 7, 2014 (the "Merger"), and a stock purchase agreement. As a result of these transactions, Pharma became our wholly-owned subsidiary. The only consideration that we paid under the stock purchase agreement and the Merger was shares of our Common Stock. On May 31, 2013, Pharma acquired all of the assets and assumed all of the liabilities of Cardax Pharmaceuticals, Inc. ("Holdings"). Accordingly, we have two predecessors: Pharma and Pharma's predecessor, Holdings. Prior to the February 7, 2014 effective date of the Merger, we operated under the name "Koffee Korner Inc." and our business was limited to a single location retailer of specialty coffee located in Houston, Texas. On the effective date of the Merger, we divested our coffee business and now exclusively continue Pharma's life sciences business. We currently devote substantially all of our efforts to developing nutraceutical and pharmaceutical products that provide many of the anti-inflammatory benefits of steroids or NSAIDs, but in certain cases, with the safety status of GRAS designation conferred by the FDA at certain doses. (We use nutraceuticals to refer to nutrients, dietary ingredients/supplements, and other consumer products designed to provide physiological benefits and improve health, which are not regulated by the FDA or similar authorities as pharmaceuticals.)

We are devoting substantially all of our present efforts to establishing our business. Our planned principal operations have not commenced and, accordingly, no revenue has been derived therefrom. We own intellectual property that we are marketing in varying stages worldwide. Our initial revenue generating opportunities are from our strategic alliances, including an exclusive license of our rights related to the development and commercialization of human nutraceutical products containing or utilizing a nature-identical form of astaxanthin, which provides anti-inflammatory benefits with an exceptional safety profile and global manufacturing capability. We also plan to pursue pharmaceutical applications of astaxanthin and related compounds.

At present we are not able to estimate if or when we will be able to generate sustained revenues. Our auditors have included in their report on our financial statements a "going concern" explanatory paragraph; that is to say, our financial statements have been prepared assuming that we will continue as a going concern. Given our recurring losses from operations, there is substantial doubt of our ability to continue as a going concern.

### Results of Operations

#### *Results of Operations for the Three and Six-Month Periods Ended June 30, 2014 and 2013:*

The following table reflects our operating results for the three and six-month periods ended June 30, 2014 and 2013:

Other expenses, net, were \$123,894 and \$288,471 for the six-month periods ended June 30, 2014 and 2013, respectively. For the six-month periods ended June 30, 2014 and 2013, other expenses primarily consisted of interest expense on notes payable of \$117,042 and \$284,660, respectively. Included in interest expense were \$4,592 and \$34,813 in amortization of notes payable discounts for the six-month periods ended June 30, 2014 and 2013, respectively.

### **Liquidity and Capital Resources**

Since our inception, we have sustained operating losses and have used cash raised by issuing securities in our operations. During the six-month periods ended June 30, 2014 and 2013, we used cash in operating activities of \$3,786,706 and \$2,012,990, respectively, and incurred a net loss of \$13,305,999, and \$1,501,521, respectively.

We require additional financing in order to continue to fund our operations, and pay existing and future liabilities and other obligations. It is estimated that our limited available cash resources as of the date of this Quarterly Report on Form 10-Q, would be sufficient to continue operations only through December 31, 2014. We cannot give any assurance that we will in the future be able to achieve a level of profitability from the sale of future products or otherwise to sustain our operations. These conditions raise substantial doubt about our ability to continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on recoverability and reclassification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

Any inability to obtain additional financing on acceptable terms will materially and adversely affect us, including requiring us to significantly further curtail or cease business operations altogether.

Our working capital and capital requirements at any given time depend upon numerous factors, including, but not limited to:

- the progress of research and development programs;
- the level of resources that we devote to the development of our technologies, patents, marketing and sales capabilities; and
- revenues from the sale of any products or license revenues and the cost of any production or other operating expenses.

The following is a summary of our cash flows provided by (used in) operating, investing and financing activities during the periods indicated:

Cash Flow Summary	Six-months ended June 30, 2014	Six-months ended June 30, 2013
Net Cash Used in Operating Activities	\$ (3,786,706)	\$ (2,012,990)
Net Cash Used in Investing Activities	(6,709)	(22,091)
Net Cash Provided by Financing Activities	5,448,692	2,453,973
Net Cash Increase for Period	1,655,277	418,892
Cash at Beginning of Period	222,410	7,799
Cash at End of Period	<u>\$ 1,877,687</u>	<u>\$ 426,691</u>

*Cash Flows from Operating Activities*

During the six-month periods ended June 30, 2014 and 2013, our operating activities primarily consisted of payments to, or accruals for payments to, employees, directors, and consultants, for services related to research and development and administration.

*Cash Flows from Investing Activities*

During the six-month periods ended June 30, 2014 and 2013, our investing activities were primarily related to purchases of property and equipment and expenditures related to patent development.

*Cash Flows from Financing Activities*

During the six-month periods ended June 30, 2014 and 2013, our financing activities consisted of various transactions in which we raised proceeds through the issuance of debt and common stock. The increase in our financing activities was primarily attributable to our requirement to obtain significant amounts of capital to support our operations prior to the commencement of a revenue stream or other liquidity events. Because of the nature of our business, capital is required to support research and development costs, as well as, our normal operating costs.

Our existing liquidity is not sufficient to fund our operations, anticipated capital expenditures, working capital and other financing requirements for the foreseeable future. We will need to seek to obtain additional debt or equity financing, especially if we experience downturns or cyclical fluctuations in our business that are more severe or longer than anticipated, or if we experience significant increases in the cost of components and manufacturing, or increases in our expense levels resulting from being a publicly-traded company. If we attempt to obtain additional debt or equity financing, we cannot assure you that such financing will be available to us on favorable terms, or at all.

**Off-Balance Sheet Arrangements**

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

As a smaller reporting company, we are not required to provide the information called for by this Item.

## ITEM 4. CONTROLS AND PROCEDURES.

### Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 15d-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (b) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of the our management and directors; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements. Based on our evaluation under the framework in Internal Control—Integrated Framework, our management concluded that our internal control over financial reporting was not effective as of June 30, 2014.

In light of the material weaknesses described below, additional analyses and other procedures were performed to ensure that the Company's condensed consolidated financial statements included in this Quarterly Report on Form 10-Q were prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"). These measures included expanded quarter-end closing procedures, the dedication of significant internal resources to scrutinize account analyses and reconciliations, and management's own internal reviews and efforts to remediate the material weaknesses in internal control over financial reporting described below.

### Changes in Internal Controls over Financial Reporting

Except as described below, there were no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

### In-Process Remediation Actions to Address the Internal Controls Weaknesses

Management identified the following material weaknesses and/or performed the following actions to address such weaknesses in the Company's internal control over financial reporting as of June 30, 2014:

1. *Lack of a functioning audit committee.* Before June 16, 2014, the Company lacked a majority of independent members and lacked a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures. On June 16, 2014, the Company appointed three independent directors, and on July 14, 2014, our board of directors appointed three independent directors to our audit committee, which management believes has resulted in a fully functioning audit committee that will undertake the oversight in the establishment and monitoring of required internal controls and procedures.

2. *Segregation of Duties.* The Company has inadequate segregation of duties consistent with control objectives of having segregation of the initiation of transactions, the recording of transactions and the custody of assets. When funds are available to us, we may increase our accounting personnel resources to enable segregate duties consistent with such control objectives.

3. *Control activities relating to period end reporting.* During the three month period ending June 30, 2014, the Company standardized and documented its accounting procedures, including the itemized review and sign-off by senior accounting personnel and the Chief Financial Officer, which management believes has resulted in effective controls over period end financial disclosure and reporting processes.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS.

From time to time, we may become involved in various lawsuits and legal proceedings that arise in the ordinary course of business. However, litigation is subject to inherent uncertainties and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.
