NOTES TO THE CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – COMPANY BACKGROUND

Cardax Pharmaceuticals, Inc. (“Holdings”) was incorporated in the State of Delaware on March 23, 2006.

In May of 2006, Hawaii Biotech, Inc., contributed its anti-inflammatory, small molecule line of business into Holdings. Holdings issued (i) 9,447,100 shares of common stock of Holdings, (ii) 14,440,920 shares of Series A preferred stock of Holdings, (iii) 11,113,544 shares of Series B preferred stock of Holdings and (iv) 13,859,324 shares of Series C preferred stock of Holdings to Hawaii Biotech, Inc., in exchange for the assets and liabilities contributed to Holdings. The above shares were then distributed by Hawaii Biotech, Inc. to its shareholders. An additional 704,225 shares of Series C preferred stock were issued as part of the initial capitalization of Holdings. On January 30, 2007, all outstanding shares of Series A, B, and C preferred stock were converted into shares of Series A preferred stock.

Holdings was formed for the purpose of developing a platform of proprietary, exceptionally safe, small molecule compounds for large unmet medical needs where oxidative stress and inflammation play important causative roles. Holdings’ platform has application in arthritis, metabolic syndrome, liver disease, and cardiovascular disease, as well as macular degeneration and prostate disease. Holdings’ current primary focus is on the development of astaxanthin technologies. Astaxanthin is a naturally occurring marine compound that has robust anti-oxidant and anti-inflammatory activity.

In May of 2013, Holdings formed a 100% owned subsidiary company called Cardax Pharma, Inc. (“Pharma”). Pharma was formed to maintain Holdings’ operations going forward, leaving Holdings as an investment holding company.

On November 29, 2013, Holdings entered into a definitive merger agreement (“Merger Agreement”) with Koffee Korner Inc., a Delaware corporation (“Koffee Korner”) (OTCQB:KOFF), and its wholly owned subsidiary (“Koffee Sub”), pursuant to which, among other matters and subject to the conditions set forth in such Merger Agreement, Koffee Sub would merge with and into Pharma. In connection with such merger agreement and related agreements, upon the consummation of such merger, Pharma would become a wholly owned subsidiary of Koffee Korner and Koffee Korner would issue shares of its common stock to Holdings. At the effective time of such merger, Holdings would own a majority of the shares of the then issued and outstanding shares of common stock of Koffee Korner.

On February 7, 2014, Holdings completed its merger with Koffee Korner, which was renamed to Cardax, Inc. (the “Company”) (OTCQB:CDXI). Concurrent with the merger: (i) the Company received aggregate gross cash proceeds of \$3,923,100 in exchange for the issuance and sale of an aggregate 6,276,960 of shares of the Company’s common stock, together with five year warrants to purchase an aggregate of 6,276,960 shares of the Company’s common stock at \$0.625 per share, (ii) the notes issued on January 3, 2014, in the outstanding principal amount of \$2,076,000 and all accrued interest thereon, automatically converted into 3,353,437 shares of the Company’s common stock upon the reverse merger at \$0.625 per share, together with five year warrants to purchase 3,321,600 shares of common stock at \$0.625 per share, (iii) the notes issued in 2013, in the outstanding principal amount of \$8,489,036 and all accrued interest thereon, automatically converted into 14,446,777 shares of the Company’s common stock upon the reverse merger at \$0.625 per share, together with five year warrants to purchase 14,446,777 shares of common stock at \$0.625 per share, (iv) stock options to purchase 15,290,486 shares of Holdings common stock at \$0.07 per share were cancelled and substituted with stock options to purchase 6,889,555 shares of the Company’s common stock at \$0.155 per share, (v) additional stock options to purchase 20,867,266 shares of the Company’s common stock at \$0.625 per share were issued, and (vi) the notes issued in 2008 and 2009, in the outstanding principal amounts of \$55,000 and \$500,000, respectively, and all accrued interest thereon, were repaid in full. The assets and liabilities of Koffee Korner were distributed in accordance with the terms of a spin-off agreement on the closing date.

NOTES TO THE CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 1 – COMPANY BACKGROUND (continued)

The share exchange transaction was treated as a reverse acquisition, with Holdings and Pharma as the acquirers and Koffee Korner and Koffee Sub as the acquired parties. Unless the context suggests otherwise, when the Company refers to business and financial information for periods prior to the consummation of the reverse acquisition, the Company is referring to the business and financial information of Holdings and Pharma. Under U.S. GAAP guidance ASC 805-40, *Business Combinations – Reverse Acquisitions*, the Acquisition has been treated as a reverse acquisition with no adjustment to the historical book and tax basis of the Company's assets and liabilities.

On August 28, 2014, the Company entered into an Agreement and Plan of Merger (the "Holdings Merger Agreement") with its principal stockholder, Holdings, pursuant to which Holdings will merge with and into the Company (the "Holdings Merger"). There will not be any cash consideration exchanged in the Holdings Merger. Upon the closing of the Holdings Merger, the stockholders of Holdings will receive shares of the Company's newly issued preferred stock that will automatically convert, without charge, into an aggregate number of shares of the Company's common stock that are held by Holdings on the date of the closing of the Holdings Merger and the Company's restricted shares of common stock held by Holdings will be cancelled. Accordingly, there will not be any change to the Company's capitalization due to the Holdings Merger. As of June 30, 2015, the Holdings Merger had not been completed.

Going concern matters

The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying condensed consolidated financial statements, the Company incurred a net loss of \$584,265 and \$1,700,420 for the three and six-months ended June 30, 2015, respectively, and a net loss of \$2,021,070 and \$13,305,999 for the three and six-months ended June 30, 2014, respectively. The Company has incurred losses since inception resulting in an accumulated deficit of \$51,592,702 as of June 30, 2015, and has had negative cash flows from operating activities since inception. The Company anticipates further losses in the development of its business. As a result of these and other factors, the Company's independent registered public accounting firm has determined there is substantial doubt about the Company's ability to continue as a going concern.

In addition to the \$1,125,000 raised during the first six-months of 2015, the Company plans to raise additional capital to carry out its business plan. The Company's ability to raise additional capital through future equity and debt securities issuances is unknown. Obtaining additional financing, the successful development of the Company's contemplated plan of operations, and its transition, ultimately, to profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raises substantial doubt about the Company's ability to continue as a going concern. The condensed consolidated financial statements of the Company do not include any adjustments that may result from the outcome of these uncertainties.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim financial information. In the opinion of the Company's management, the accompanying condensed consolidated financial statements reflect all adjustments, consisting of normal, recurring adjustments, considered necessary for a fair presentation of the results for the interim periods ended June 30, 2015 and 2014.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of presentation (continued)

Although management believes that the disclosures in these unaudited condensed consolidated financial statements are adequate to make the information presented not misleading, certain information and footnote disclosures normally included in financial statements that have been prepared in accordance U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC.

The results for the three-month periods ended June 30, 2015 are not necessarily indicative of the results to be expected for the year ending December 31, 2015. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the current report on Form 10-K filed on March 13, 2015.

The accompanying condensed consolidated financial statements include the accounts of Cardax, Inc., and its wholly owned subsidiary, Cardax Pharma, Inc., and its predecessor, Cardax Pharmaceuticals, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

Reclassifications

The Company has made certain reclassifications to conform its prior periods' data to the current presentation. These reclassifications had no effect on the reported results of operations or cash flows.

Recent accounting pronouncements

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements—Going Concern*. The provisions of ASU No. 2014-15 require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The amendments in this ASU are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The Company is currently assessing the impact of this ASU on the Company's consolidated financial statements.

NOTE 8 – STOCK OPTION PLANS (continued)

Under ASC No. 718, the Company estimates the fair value of stock options granted on each grant date using the Black-Scholes option valuation model and recognizes an expense ratably over the requisite service period. The range of fair value assumptions related to options outstanding as of June 30, 2015 and December 31, 2014, were as follows:

	<u>June 30, 2015</u>	<u>December 31, 2014</u>
Dividend yield	0.0%	0.0%
Risk-free rate	0.12% - 1.47%	0.12% - 1.47%
Expected volatility	112% - 170%	112% - 170%
Expected term	1.1 - 5.5 years	1.1 - 5.5 years

The expected volatility was calculated based on the historical volatilities of publicly traded peer companies, determined by the Company. The risk free interest rate used was based on the U.S. Treasury constant maturity rate in effect at the time of grant for the expected term of the stock options to be valued. The expected dividend yield was zero, as the Company does not anticipate paying a dividend within the relevant time frame. Due to a lack of historical information needed to estimate the Company's expected term, it was estimated using the simplified method allowed under ASC No. 718. In calculating the number of options issued in the three-months ended June 30, 2015, the Company used assumptions comparable to December 31, 2014, with a 20-day weighted average stock price.

As part of the requirements of ASC No. 718, the Company is required to estimate potential forfeitures of stock grants and adjust stock based compensation expense accordingly. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized in the period of change and will also impact the amount of stock based compensation expenses to be recognized in future periods.

The Company recognized \$347,468 and \$962,578 in stock based compensation expense related to options during the three and six-months ended June 30, 2015, respectively. Of these amounts, \$347,468 and \$763,110 were related to options issued to employees, directors, and consultants in lieu of salaries, wages, and fees accrued for services during the three and six-months ended June 30, 2015, respectively. The Company recognized \$831,195 and \$4,717,841, in stock based compensation expense during the three and six-months ended June 30, 2014, respectively.

Exercisable June 30, 2015	<u>38,800,294</u>	\$ 0.50	3.89	\$ 843,820

Under ASC No. 718, the Company estimates the fair value of warrants granted on each grant date using the Black-Scholes option valuation model. The fair value of warrants issued with debt is recorded as a debt discount and amortized over the life of the debt. The range of fair value assumptions related to warrants outstanding as of June 30, 2015 and December 31, 2014, were as follows:

	June 30, 2015	December 31, 2014
Dividend yield	0.0%	0.0%
Risk-free rate	0.12% - 0.86%	0.12% - 0.66%
Expected volatility	102% - 159%	112% - 159%
Expected term	1.0 - 2.5 years	1.0 - 2.5 years

The expected volatility was calculated based on the historical volatilities of publicly traded peer companies, determined by the Company. The risk free interest rate used was based on the U.S. Treasury constant maturity rate in effect at the time of grant for the expected term of the warrants to be valued. The expected dividend yield was zero, as the Company does not anticipate paying a dividend within the relevant time frame. The expected warrant term is the life of the warrant.

The Company recognized \$4,000 in stock based compensation expense related to warrants for the three and six-months ended June 30, 2015. The Company recognized \$11,610 and \$5,229,589, in stock based compensation expense related to warrants during the three and six-months ended June 30, 2014, respectively.

NOTE 11 – INCOME TAXES

The Company accounts for income taxes using the asset and liability method. Under this method, deferred income tax assets and liabilities are determined based upon the difference between the financial statement carrying amounts and the tax basis of assets and liabilities and are measured using the enacted tax rate expected to apply to taxable income in the years in which the differences are expected to be reversed.

The effective tax rate for the periods ended June 30, 2015 and 2014, differs from the statutory rate of 34% as a result of the state taxes (net of Federal benefit) and permanent differences.

The Company's valuation allowance was primarily related to the operating losses. The valuation allowance is determined in accordance with the provisions of ASC No. 740, *Income Taxes*, which requires an assessment of both negative and positive evidence when measuring the need for a valuation allowance. Based on the available objective evidence and the Company's history of losses, management provides no assurance that the net deferred tax assets will be realized. As of June 30, 2015, and December 31, 2014, the Company has applied a valuation allowance against its deferred tax assets net of the expected income from the reversal of the deferred tax liabilities.

NOTES TO THE CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 11 – INCOME TAXES (continued)

The Company is subject to taxation in the United States and two state jurisdictions. The preparation of tax returns requires management to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. Management, in consultation with its tax advisors, files its tax returns based on interpretations that are believed to be reasonable under the circumstances. The income tax returns, however, are subject to routine reviews by the various taxing authorities. As part of these reviews, a taxing authority may disagree with respect to the tax positions taken by management (“uncertain tax positions”) and therefore may require the Company to pay additional taxes. Management evaluates the requirement for additional tax accruals, including interest and penalties, which the Company could incur as a result of the ultimate resolution of its uncertain tax positions. Management reviews and updates the accrual for uncertain tax positions as more definitive information becomes available from taxing authorities, completion of tax audits, expiration of statute of limitations, or upon occurrence of other events.

As of June 30, 2015 and December 31, 2014, there was no liability for income tax associated with unrecognized tax benefits. The Company recognizes accrued interest related to unrecognized tax benefits as well as any related penalties in interest income or expense in its condensed consolidated statements of operations, which is consistent with the recognition of these items in prior reporting periods.

The federal and state income tax returns of the Company are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Explanatory Note

Unless otherwise noted, references in this Form 10-Q to "Cardax," the "Company," "we," "our" or "us" means Cardax, Inc., the registrant, and, unless the context otherwise requires, together with its wholly-owned subsidiary, Cardax Pharma, Inc., a Delaware corporation ("Pharma"), and Pharma's predecessor, Cardax Pharmaceuticals, Inc., a Delaware corporation ("Holdings").

Corporate Overview and History

We acquired Cardax Pharma, Inc. ("Pharma") and its life science business through the merger of Cardax Acquisition, Inc. ("Cardax Sub"), our wholly-owned transitory subsidiary ("Cardax Sub"), with and into Pharma on February 7, 2014 (the "Merger"), and a stock purchase agreement. As a result of these transactions, Pharma became our wholly-owned subsidiary. The only consideration that we paid under the stock purchase agreement and the Merger was shares of our Common Stock. On May 31, 2013, Pharma acquired all of the assets and assumed all of the liabilities of Cardax Pharmaceuticals, Inc. ("Holdings"). Accordingly, we have two predecessors: Pharma and Pharma's predecessor, Holdings. Prior to the February 7, 2014 effective date of the Merger, we operated under the name "Koffee Komer Inc." and our business was limited to a single location retailer of specialty coffee located in Houston, Texas. On the effective date of the Merger, we divested our coffee business and now exclusively continue Pharma's life sciences business. On August 28, 2014, we entered into an Agreement and Plan of Merger (the "Holdings Merger Agreement") with our principal stockholder, Holdings, pursuant to which Holdings will merge with and into the Company (the "Holdings Merger"). There will not be any cash consideration exchanged in the Holdings Merger. Upon the closing of the Holdings Merger, the stockholders of Holdings will receive shares of our newly issued preferred stock that will automatically convert, without charge, into an aggregate number of shares of our common stock that are held by Holdings on the date of the closing of the Holdings Merger and our restricted shares of common stock held by Holdings will be cancelled. Accordingly, there will not be any change to our capitalization due to the Holdings Merger. As of June 30, 2015, the Holdings Merger had not been completed.

We currently devote substantially all of our efforts to developing consumer health and pharmaceutical products that we believe will provide many of the anti-inflammatory benefits of steroids or NSAIDs by targeting many of the same inflammatory pathways and mediators, but with exceptional safety profiles. (We use consumer health products to refer to nutrients, dietary ingredients/supplements, and other consumer products designed to provide physiological benefits and improve health, which are not regulated by the FDA or similar authorities as pharmaceuticals.) The safety and efficacy of the Company's product candidates have not been directly evaluated in clinical trials or confirmed by the FDA.

We are devoting substantially all of our present efforts to establishing our business. Our planned principal operations have not commenced and, accordingly, no revenue has been derived therefrom. We own intellectual property that we are marketing in varying stages worldwide. Our initial revenue generating opportunities are from our strategic alliances, including an exclusive license of our rights related to the development and commercialization of consumer health products containing or utilizing a nature-identical form of astaxanthin and a collaboration related to proprietary formulations of astaxanthin. We also plan to pursue pharmaceutical applications of astaxanthin and related compounds.

At present we are not able to estimate if or when we will be able to generate sustained revenues. Our financial statements have been prepared assuming that we will continue as a going concern; however, given our recurring losses from operations, our independent registered public accounting firm has determined there is substantial doubt about our ability to continue as a going concern.

Included in interest expense were \$0 and \$4,592 in amortization of notes payable discounts for the six-months ended June 30, 2015 and 2014, respectively.

Liquidity and Capital Resources

Since our inception, we have sustained operating losses and have used cash raised by issuing securities in our operations. During the six-months ended June 30, 2015 and 2014, we used cash in operating activities of \$569,235 and \$3,786,706, respectively, and incurred a net loss of \$1,700,420, and \$13,305,999, respectively.

We require additional financing in order to continue to fund our operations, and pay existing and future liabilities and other obligations. To conserve cash resources, we have agreed with our employees, executives, and certain vendors to pay any compensation due during any calendar quarter that has not been paid in cash in the form of shares of Common Stock or incentive stock options, as described in the Current Report on Form 8-K dated July 7, 2015. In addition, we have deferred payment of other trade payables. We intend to continue such arrangements until it obtains sufficient financing to restore full compensation and payment amounts.

It is estimated that our limited available cash resources as of the date of this Quarterly Report on Form 10-Q, would be sufficient to continue operations on a limited budget only through October 15, 2015. In addition to the \$1,125,000 raised during the first six-months of 2015, we intend to raise additional capital that would fund our operations through at least June 30, 2016. We are currently negotiating the terms of additional financing with investors and are considering a private placement of our common stock and warrants to purchase common stock. Any financing transaction could also, or in the alternative, include the issuance of our debt or convertible debt securities. There can be no assurance that a financing transaction would be available to us on terms and conditions that we determined are acceptable.

We cannot give any assurance that we will in the future be able to achieve a level of profitability from the sale of future products or otherwise to sustain our operations. These conditions raise substantial doubt about our ability to continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on recoverability and reclassification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

Any inability to obtain additional financing on acceptable terms will materially and adversely affect us, including requiring us to significantly further curtail or cease business operations altogether.

Our working capital and capital requirements at any given time depend upon numerous factors, including, but not limited to:

- the progress of research and development programs;
- the level of resources that we devote to the development of our technologies, patents, marketing and sales capabilities; and
- revenues from the sale of any products or license revenues and the cost of any production or other operating expenses.

The following is a summary of our cash flows provided by (used in) operating, investing and financing activities during the periods indicated:

Cash Flow Summary	Six-months ended June 30, 2015	Six-months ended June 30, 2014
Net Cash Used in Operating Activities	\$ (569,235)	\$ (3,786,706)
Net Cash Used in Investing Activities	(5,785)	(6,709)
Net Cash Provided by Financing Activities	1,125,000	5,448,692
Net Cash Increase for Period	549,980	1,655,277
Cash at Beginning of Year	35,696	222,410
Cash at End of Period	<u>\$ 585,676</u>	<u>\$ 1,877,687</u>

Cash Flows from Operating Activities

During the six-months ended June 30, 2015 and 2014, our operating activities primarily consisted of payments to, or accruals for payments to, employees, directors, and consultants, for services related to research and development and administration. The decrease in net cash used in operating activities was primarily attributable to a combination of (i) increased professional and financing expenses in the aggregate amount of \$1,587,423 during the six-months ended June 30, 2014 in connection with the Merger and financing activities, and (ii) increased cash payment of accrued payroll, accounts payable, accrued interest, and fees payable to directors in the aggregate amount of \$1,115,362 during the six-months ended June 30, 2014.

Cash Flows from Investing Activities

During the six-months ended June 30, 2015 and 2014, our investing activities were primarily related to proceeds from the sale of equipment and expenditures on patents.

Cash Flows from Financing Activities

During the six-months ended June 30, 2015 and 2014, our financing activities consisted of various transactions in which we raised proceeds through the issuance of debt and common stock. Because of the nature of our business, capital is required to support research and development costs, as well as, our normal operating costs.

Our existing liquidity is not sufficient to fund our operations, anticipated capital expenditures, working capital and other financing requirements for the foreseeable future. We will need to seek to obtain additional debt or equity financing, especially if we experience downturns or cyclical fluctuations in our business that are more severe or longer than anticipated, or if we experience significant increases in the cost of components and manufacturing, or increases in our expense levels resulting from being a publicly-traded company. If we attempt to obtain additional debt or equity financing, we cannot assure you that such financing will be available to us on favorable terms, or at all.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a smaller reporting company, we are not required to provide the information called for by this Item.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 15d-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (b) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of the our management and directors; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the financial statements. Based on our evaluation under the framework in Internal Control—Integrated Framework, our management concluded that our internal control over financial reporting was effective as of June 30, 2015.

Changes in Internal Controls over Financial Reporting

There were no changes in the Company’s internal control over financial reporting during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, we may become involved in various lawsuits and legal proceedings that arise in the ordinary course of business. However, litigation is subject to inherent uncertainties and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

ITEM 1A. RISK FACTORS.

As a smaller reporting company, we are not required to provide the information called for by this Item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

We entered into separate subscription agreements, registration rights agreements and warrant purchase agreements (each, a "Purchase Agreement"), by and between the Company and investors (each a "Purchaser" and collectively, the "Purchasers") pursuant to which the Company issued and sold to the Purchasers shares of the Company's common stock and Class D Warrants and E Warrants (each, a "Warrant" and, collectively, the "Warrants") to purchase shares of the Company's common stock.

Under the Purchase Agreements, each of the Purchasers purchased units (the "Unit") that consisted of: (A) shares of the Company's common stock at a price per share of \$0.30, (B) two (2) Class D warrants, each to purchase one (1) share of the Company's common stock at a price per share of \$0.10, and (C) one (1) Class E warrant to purchase three-quarters (3/4) of one (1) share of the Company's common stock at a price per share of \$0.1667. The Class D warrants and the Class E warrants will expire March 31, 2020. In the calendar year to date (through August 7, 2015), we have sold an aggregate of 3,834,062 Units for an aggregate purchase price of \$1,150,222. No placement agent or broker dealer was used or participated in any offering or sale of the Units.

The offering of the Units was made in a transaction that is exempt from the registration requirements of the Securities Act, pursuant to Section 4(a)(2) thereof and the provisions of Regulation D or Regulation S that is promulgated under the Securities Act. The Company may continue to offer securities and may use a placement agent or broker dealer in any such offering.

This Quarterly Report on Form 10-Q does not constitute an offer to sell, or a solicitation to purchase, any our securities.

Under the terms of the Registration Rights Agreement, the Company has agreed to register the common stock that is issued in the Unit and the shares underlying the Warrants shortly after March 31, 2016 or, if earlier, in connection with any registration rights that may be granted by us in an offering of securities of \$250,000 or more on or prior to March 31, 2016 (a "Qualified Financing"). The Subscription Agreement also includes "most favored nation" rights to the purchasers of the Units in the event the Company issues stock on terms more favorable to the purchaser in a Qualified Financing.

The foregoing summary of the Subscription Agreement, Registration Rights Agreement, and Warrants does not purport to be complete and is qualified in its entirety by reference to the full text of such agreements, which were filed with our Current Report on Form 8-K on March 9, 2015.
